

"Its All Digital"

"Its All over IP"

"Its One Network"

"It's the Right Way"

Streamnet Solutions are enabling the Power of AV over IP today and are playing a key-role in the AV industry, offering:

- Higher Quality: Highest video quality available in the market and significant price/performance advantage in total system cost.
- Longer Distances: Signal can be transmitted over fiber, to virtually unlimited displays.
- No degradation over long distances.

- Managed and segmented AV on IP network-keeps IT Managers very happy.
- Simple to design, install and use.
- Easily expandable-by Source or by Display.

- Lower Cost: Significantly less cabling, little-to-no-racks, no matrix switches, and no additional control system required.
- Greener: Less equipment and less cabling required= less weight, less copper, less energy used.
